Research/Creative Work

(My research/creative work falls into three main categories; directing, dramaturgy and acting with directing being my primary focus.)

1) DIRECTING

CONTRACTS & CO-PRESENTATIONS WITH PROFESSIONAL THEATRE COMPANIES

I begin my credits with shows that have been co-presented with professional theatre companies or where I have been contracted by a company. In my opinion, these may be considered on par with juried or invited works. When a theatre company includes my work in its season, whether by hiring me or by co-presenting my work, it is because they have vetted me and my company. From my perspective, pitching a project to a theatre company is the equivalent of submitting an abstract. There is a vision for an end product and past production is a factor. Generally speaking, this collection of theatre productions represents my strongest and most significant work.
